The SurfPrep Sanding System is the Visionary Award Winner for 'Product Innovation and Productivity in Sanding'. These sanding systems have revolutionized the woodworking industry over the past decade by incorporating state-of-the-art abrasives with ergonomic sanders and accessories to make every job easier. SurfPrep has eliminated what has always

been a sanding operator's most mundane, physically demanding, and time-consuming task. Sanding is foundational for preparing surfaces and SurfPrep is your solution to achieving the best quality finish.

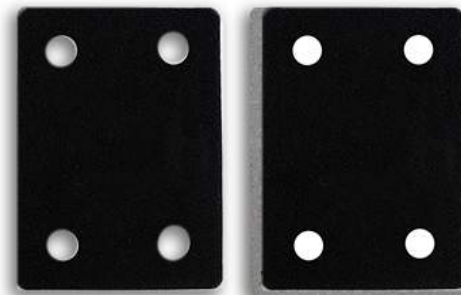

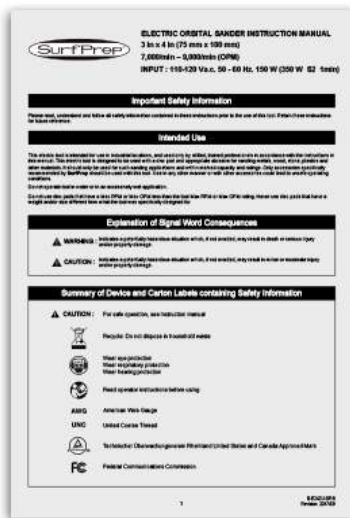

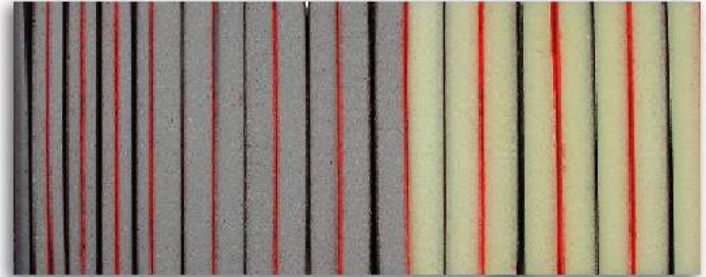

Sanding System Kits offer the freedom to test a variety of abrasives (Foam, Film, Screen, Paper) without the need to purchase full box quantities. This combination of sanding supplies ensures every application need is met. SurfPrep's kit will take you from start to finish, whether you're level sanding, prep sanding, or finish sanding. We offer both pneumatic and electric tools. Clean sanding (vacuum compatible) and non-vacuum kits are available.

## 3" x 4" 'STORM' AIR SANDING SYSTEMS

Air: 16 SCFM / 3.1 CFM / 90 PSI | Speed: 10,000 OPM | Perfect Orbit: 3mm  
 Weight: 2 Pounds | Height: 3.3" | Length: 5.5" | Size: 3" X 4"  
 Material: Composite body, Steel Motor | Power: 0.24 HP | Watts: 179  
 1 Year Manufacturer Warranty

Part Number	Features
SPSS3X4	3" X 4" Storm Air Sanding System Kit: SPS3X4, SPI2H, SPVPFOAM3X4, SPVPFILM3X4 (Includes SPPS3X4 & SPIP3X4)
SPSS3X4CV	3" X 4" Storm Air Sanding System Kit Vacuum Compatible: SPS3X4CV, SPI2H, SPVPFOAM3X4.4, SPVPFILM3X4.4 (Includes SPPS3X4.4 & SPIP3X4.4)

## 3" x 4" 'RAY' ELECTRIC SANDING SYSTEMS

Voltage: 110-120V | Speed: 4,000, 7,000 & 9,000 OPM | Perfect Orbit: 3mm  
 Weight: 2.47 Pounds | Height: 4.17" | Length: 7.32" | Size: 3" X 4" | Cable: 12' Cable  
 Material: Composite body, Steel Motor | Watts: 150-350  
 1 Year Manufacturer Warranty

Part Number	Features
SPESS3X4	3" X 4" Electric Ray Sanding System Kit: SPES3X4, SPVPFOAM3X4, SPVPFILM3X4 (Includes SPPS3X4 & SPIP3X4)
SPESS3X4CV	3" X 4" Electric Ray Sanding System Kit Vacuum Compatible: SPES3X4CV, SPVPFOAM3X4.4, SPVPFILM3X4.4 (Includes SPPS3X4.4 & SPIP3X4.4)

## 3<sup>2/3</sup>" x 7" 'STORM' AIR SANDING SYSTEMS

Air: 16 SCFM / 3.1 CFM / 90 PSI | Speed: 10,000 OPM | Perfect Orbit: 3mm  
 Weight: 2.26 Pounds | Height: 4.15" | Length: 6.93" | Size: 3<sup>2/3</sup>" X 7"  
 Material: Composite body, Steel Motor | Power: 0.24 HP | Watts: 179  
 1 Year Manufacturer Warranty

Part Number	Features
SPSS3X7	3 <sup>2/3</sup> " X 7" Storm Air Sanding System Kit: SPS3X7, SPI2H, SPVPFOAM3X7, SPVPFILM3X7 (Includes SPPS3X7)
SPSS3X7CV	3 <sup>2/3</sup> " X 7" Storm Air Sanding System Kit Vacuum Compatible: SPS3X7CV, SPI2H, SPVPFOAM3X7.10, SPVPFILM3X7.10 (Includes: SPPS3X7.10)

## 3" 'STORM' AIR SANDING SYSTEM

Air: 17 SCFM / 3.4 CFM / 90 PSI | Speed: 12,000 RPM | Random Orbit: 3/16"  
 Weight: 2.26 Pounds | Height: 3.5" | Length: 4.9" | Size: 3"  
 Material: Composite body, Steel Motor | Power: 0.28 HP | Watts: 209  
 1 Year Manufacturer Warranty

Part Number	Features
SPSS3	SurfPrep 3" Storm Air Sanding System Kit: SPS3, SPVP3 (Includes Foam, Film, Non-Woven, & SPPS3), & SPI2H

## 3" 'RAY' ELECTRIC SANDING SYSTEM

Voltage: 110-120V | Speed: 4,000, 7,000, 9,000, & 10,000 RPM | Random Orbit: 3/16"  
 Weight: 2.27 Pounds | Height: 3.93" | Length: 7" | Size: 3" | Cable: 12' Cable  
 Material: Composite body, Steel Motor | Watts: 150-350  
 1 Year Manufacturer Warranty

Part Number	Features
SPESS3	SurfPrep 3" Electric Sanding System Kit: SPES3HL316, SPVP3 (Includes Foam, Film, Non-Woven, & SPPS3)

## 5" 'TRIDENT' AIR SANDING SYSTEMS

Air: 17 SCFM / 3.4 CFM / 90 PSI | Speed: 12,000 RPM | Random Orbit: 3/16" or 3/32"  
 Weight: 1.84 Pounds | Height: 3.9" | Length: 7" | Size: 5"  
 Material: Composite body, Steel Motor | Power: 0.28 HP | Watts: 209  
 1 Year Manufacturer Warranty

Part Number      Features

SPSS5HL316	5" Trident Air Sanding System Kit: SPTS5HL316, SPI2H, SPVPFOAM5, SPVPFILM5, & SPVPPAPER5 (Includes 2 SPPS5)
SPSS5HL332	5" Trident Air Sanding System Kit: SPTS5HL332, SPI2H, SPVPFOAM5, SPVPFILM5, & SPVPPAPER5 (Includes 2 SPPS5)
SPSS5HL316CV	5" Trident Air Sanding System Kit Vacuum Compatible: SPTS5HL316CV, SPI2H, SPVPFOAM5.5, SPVPFILM5.5, & SPVPPAPER5.5 (Includes 2 SPPS5)
SPSS5HL332CV	5" Trident Air Sanding System Kit Vacuum Compatible: SPTS5HL332CV, SPI2H, SPVPFOAM5.5, SPVPFILM5.5, & SPVPPAPER5.5 (Includes 2 SPPS5)

## 5" 'RAY' ELECTRIC SANDING SYSTEMS

Voltage: 110-120V | Speed: 4,000, 7,000, 9,000, & 10,000 RPM | Random Orbit: 3/16" or 3/32"  
 Weight: 2.84 Pounds | Height: 3.94" | Length: 8.86" | Size: 5" | Cable: 12' Cable  
 Material: Composite body, Steel Motor | Watts: 150-350  
 1 Year Manufacturer Warranty

Part Number      Features

SPES5HL316	5" Ray Electric Sanding System Kit: SPES5HL316, SPVPFOAM5, SPVPFILM5, & SPVPPAPER5 (Includes 2 SPPS5)
SPES5HL332	5" Ray Electric Sanding System Kit: SPES5HL332, SPVPFOAM5, SPVPFILM5, & SPVPPAPER5 (Includes 2 SPPS5)
SPES5HL316CV	5" Ray Electric Sanding System Kit Vacuum Compatible: SPES5HL316CV, SPVPFOAM5.5, SPVPFILM5.5, & SPVPPAPER5.5 (Includes 2 SPPS5)
SPES5HL332CV	5" Ray Electric Sanding System Kit Vacuum Compatible: SPES5HL332CV, SPVPFOAM5.5, SPVPFILM5.5, & SPVPPAPER5.5 (Includes 2 SPPS5)

## 6" 'TRIDENT' AIR SANDING SYSTEMS

Air: 17 SCFM / 3.4 CFM / 90 PSI | Speed: 12,000 RPM | Random Orbit: 3/16" or 3/32"  
 Weight: 1.91 Pounds | Height: 3.9" | Length: 7" | Size: 6"  
 Material: Composite body, Steel Motor | Power: 0.28 HP | Watts: 209  
 1 Year Manufacturer Warranty

Part Number      Features

SPSS6HL316	6" Trident Air Sanding System Kit: SPTS6HL316, SPI2H, SPVPFOAM6, SPVPFILM6, & SPVPPAPER6 (Includes 2 SPPS6)
SPSS6HL332	6" Trident Air Sanding System Kit: SPTS6HL332, SPI2H, SPVPFOAM6, SPVPFILM6, & SPVPPAPER6 (Includes 2 SPPS6)
SPSS6HL316CV	6" Trident Air Sanding System Kit Vacuum Compatible: SPTS6HL316CV, SPI2H, SPVPFOAM6.6, SPVPFILM6.6, & SPVPPAPER6.6 (Includes 2 SPPS6)

# PNEUMATIC SANDERS

SurfPrep air sanders were developed with the operator in mind. An ergonomic design is key to safety and minimizing fatigue over long periods of use. The durable, low profile, nylon-composite housing protects the motor and accompanying parts making for effortless sanding. All sanders are engineered to withstand demanding, rugged applications and environments. All OEM parts are in stock. For optimal performance, minimum compressor size required to operate air sanders is 200 gallons/90 PSI, continuous 3.4 CFM.

# ELECTRIC SANDERS

SurfPrep's line of electric sanders are low profile, lightweight, power packed, and energy efficient. The ergonomic design is key to safety and minimizing fatigue over long periods of use for effortless sanding. The durable nylon-composite housing paired with the proprietary cooling fan protects the brushless magnetic driven motor. All electric sanders are engineered to withstand demanding, rugged applications and environments. Electric tools are portable and allow operators to sand both in a shop and on site. Available with vacuum compatibility for dustless sanding. All OEM parts are in stock.

# What's in a name? \_\_\_\_\_

In 2005 the owner of Dixon Enterprises began collaboration in the development of foam-backed abrasives that would attach to a sander. A team of Dixon employees brainstormed ideas for naming this new, innovative product line. With the abrasives being used to sand surfaces in preparation for multiple substrates and coatings, the name 'SurfPrep', meaning 'surface preparation', was born. California has been home to Dixon Enterprises since the mid-70s, so it was only fitting to incorporate a surfboard as the logo while using proud American colors; red, white, and blue. It was a perfect fit to complete the logo and trademark our new brand.

# BACKUP PADS

Standard

Most common, low-profile, standard density, available in PSA/H&L in most sizes for flat sanding

Soft Flex Edge

Soft Flexible Edge Pad allows relief for sanding profiled surface areas

Radius Cove

Allows abrasives to wrap and conform in order to prep-sand difficult cove profiles

## Hook & Loop

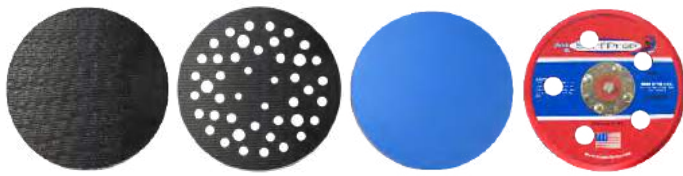

User-friendly reattachment system provides longer abrasive life and cooler sanding

## J-Hook & Loop

Longer hooks securely hold Interface Pads in place

## PSA

Pressure Sensitive Adhesive (sticky backed) abrasives

# Tips & Tricks

Backup Pads play a major role in any sanding process. SurfPrep offers a quality line with a variety of densities, backings, and shapes. When a Backup Pad begins to wear down and lose its grip, make sure to replace the Backup Pad and the quality of sanding will be much better.

# TOOL EXHAUST REPAIR KITS

Exhaust repair kits are excellent for keeping your AIR sander running like new. Old exhaust parts should be replaced if a cap is broken or if a tool is not running at its best ability. 99.9% of air tool failure is due to air contamination.

SP-10KEK	10,000 OPM Exhaust Kit (For 3"X 4" & 3 3/4" X 7" STORM Sanders) Includes: (SPA0032) Internal/External Mufflers, (SPA0038) Metal Separation Plate & (SPA0166) Muffler Cap
SP-12KEK	*DISCONTINUED TOOLS 12,000 RPM Exhaust Kit (For 3", 5" & 6" ORIGINAL Sanders) Includes: (SPA0062) Internal Gold Noise Muffler, (SPA0068) External White Dust Filter & (SPA0166) Black Plastic Muffler Cap
SPT12KEK	12,000 RPM Exhaust Kit (For 5" & 6" TRIDENT Sanders) Includes: (SPF0010) Black 360° Swivel Muffler Cap, (SPF0011) White Muffler Dust Insert & (SPF0013) Internal Muffler

## DID YOU KNOW...

If your air supply is dry and free of any contamination (water or rust) and you lubricate the sander regularly, you will enjoy years of top performance sanding

# AIR HOSES & TOOL OIL

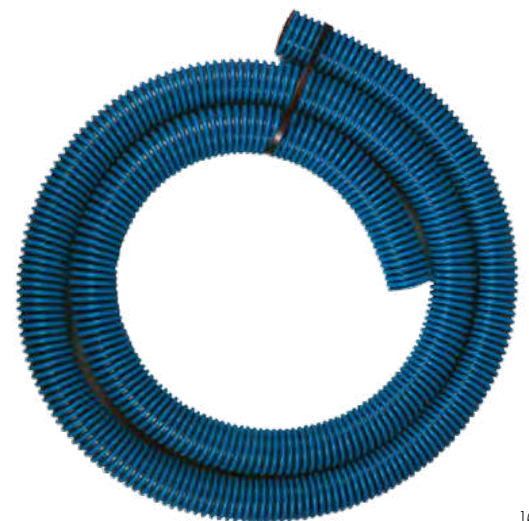

SurfPrep's Ball Swivel Air Hose allows operators to maneuver a sander in and out of tight areas without any restrictions. The hose is ergonomic and lightweight. SurfPrep's Tool Oil should be administered every four hours of operation with one drop, and one drop at end of day. Run sander so tool is lubricated overnight.

# LED INSPECTION LIGHTS

Designed to provide inspection lighting cast at a very low angle. This type of lighting helps sanding machine operators and sanding table personnel to identify defects before they end up in the finishing room. Low angle lighting silhouettes the scratch pattern and any surface imperfections making them extremely easy to see and correct. The LED light bar generates 3,500-4,500 lumen with flawless beam quality from each LED. It covers the entire working surface with even, high intensity light.

# TOOL BOXES

# SYSTAINER TOOL BOXES

## STACKABLE CASE SYSTEMS

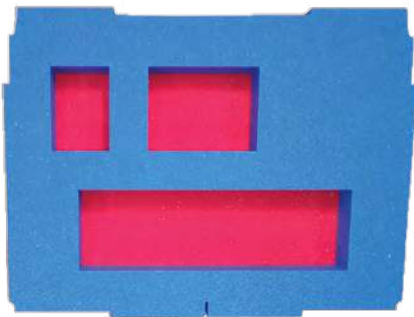

The Systainer originated from the need to transport materials and tools so they were well organized and easy to move. This was accomplished through a unique patented case system, which enables all Systainers to be stacked and linked together. The "LOC" in T-LOC stands for: Lock, Open and Connect! SurfPrep's Systainers connect with Classic-Line, T-Loc Systainer Systems, & Systainer<sup>3</sup> Models.

Foam abrasives are ideal for a multitude of applications and have greater efficiency, speed and effectiveness when compared to traditional sandpaper sheets. With today's technology in abrasive grains, flexible adhesives, foam densities and thicknesses... SurfPrep foam abrasives are the ultimate alternative to conventional sandpaper. With regular sandpaper, abrasive

# FOAM ABRASIVES

grain is coated directly onto the backing (paper, cloth/polyester or film). When coated onto one of these backings the grain is not able to flex/recess into the backing, causing the grain to re-fracture and wear away prematurely. Coating grain directly onto a solid substrate causes heat build up on the surface of the part being sanded. This excessive heat causes the coating being sanded to gum up (load or pill) and transfer to the abrasive, decreasing its life. Dixon's entire offering of SurfPrep foam abrasives are manufactured with premium abrasive grains and flexible adhesives that are coated directly onto the surface of the foam. Our unique method of coating, in addition to the use of "solvent free" adhesives, is a contributing reason for the elimination of heat build up at the point of contact and extends the life of Dixon's foam abrasives as much as 10X or more over conventional sandpaper. The magic of SurfPrep happens when a user puts our abrasive on a tool. SurfPrep has done what no other product has done before, tool sanding in the place of hand sanding. The flexibility of the foam in conjunction with the perfect orbit of our sander allows for a flawless finish. SurfPrep foam abrasives are available in a vast range of sizes, grits, and densities. They can be used with air or electric tools on a large variety of surfaces/applications.

## FLAT SURFACES

Excellent for flat scuff sanding. Although the abrasive may feel aggressive on the surface of the pad, the foam allows for gentle sanding without leaving deep scratches on the surface. The 5mm pad is great for sanding raw wood and finished surfaces.

## 5mm Foam Abrasives

## MULTI-USE SURFACES

These dense foam pads will scuff sand both flat and soft profiles. They will scuff sand without leaving deep scratches when sanding into deeper angles and profiles. Examples of use would be inside shaker door panels, beveled profiles on doors, sloped surfaces and curves.

## 10mm Foam Abrasives

## PROFILED SURFACES

Amazing ability to shape itself to curved & round profiles while scuff sanding. A must for all profiles that are hard to sand without flattening an edge. Because of its soft backing, the abrasive won't aggressively sand away deep scratches, rough profiles, etc. It is designed to ride the contour and scuff sand.

# SURFPREP TIMELINE

1974

George Dixon creates the world's first foam sanding block with the help and collaboration of Jack Woodiwiss by gluing grain on 'carpet chip foam' to make a flexible hand sanding block

1986

Skylar Faria, a recent college graduate, takes his first sales job in the Abrasives Industry in Southern California

2003

After years of being Dixon customers, Skylar and Meri Faria purchase Dixon Enterprises from the Dixon family

2005

Collaboration between Skylar and European abrasives makers begin the first stages in developing foam backed abrasives that attach to a sander

2008

Dixon Enterprises outgrows its 9,000 sq/ft warehouse and moves to a larger 20,000 sq/ft location in Lake Elsinore, CA

2010

A brand name is needed for the new product line. A group of employees come up with the name 'SurfPrep' meaning 'Surface Preparation'. A surfboard logo is created to represent Dixon's location on the California coast

2011

The very first foam abrasive sanding discs are introduced into the woodworking industry

2012

Dixon Enterprises introduces the SurfPrep sander with various foam sanding abrasives at the International Woodworking Fair (IWF) in GA...and it is a HIT!

2015

SurfPrep wins Visionary Award for 'Product Innovation & Productivity in Sanding' for the 3" X 4" Air Sanding System Kit at AWFS

2016

With sales increasing, Dixon purchases 5 acres of land in NC near the Wilmington port and builds new 30,000 sq/ft warehouse, distribution, & manufacturing center

2017

Dixon Enterprises installs belt conversion equipment addition to CA production facility

2021

The sky is the limit. SurfPrep continues to bring the best customer service and products to support the sanding industry

# FILM ABRASIVES

---

Film discs and sheets are amazing for quick stock removal. Film was created to level sand, remove saw marks, sand through old finish and deep scratches, or anything that requires quick removal. Film resists tearing and leaves a uniform scratch pattern. The white 'sacrificial stearate' prevents loading of material while sanding. Always use the Pad Saver when sanding with these sheets on your sander. Hook & Loop (H&L) and Pressure Sensitive Adhesive (PSA) options available.

*"The surfprep sander is so versatile and easy to use. My hand doesn't go numb after sanding. I have the 3" x 4" and I love the foam pads. It doesn't ruin the edges or detailed pieces. It's worth the price to have it turn out right."*

*- Jenny Wood, Wood's Furniture & Cabinet Refinishing  
(Cabinet Painting & Refinishing)*

*"Outstanding product and service! This team is totally committed to one's satisfaction! I invested in their products with confidence and have not been disappointed, customer service was also top notch!"*

*- Joel Shepard, The Country Cabinetmaker  
(Custom Cabinets)*

*"Best sanders for cabinetry and fine finish work on the market! Has saved me so much time and money. The Surfprep team and customer service is second to none!"*

*- Chris Shuck, Platinum Paint Coatings  
(Custom Cabinet Refinishing)*

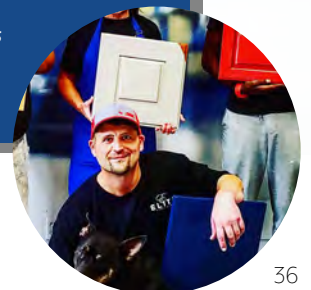

*"The sanding products have been a game changer for my cabinet refinishing business. In stock products, quick processing, and I've seen numerous occasions of the company going above and beyond to do right and help their clients."*

*- Michael Craine, Craine Painting LLC

# PAPER ABRASIVES

---

Paper backing provides enhanced support of grain and edge-wear at a lower cost than film or screen abrasives. SurfPrep's unique grain structure provides a true, consistent & uniform scratch preparing whitewood surfaces like alder, maple, etc. for darker stains leaving a surface free of defects and swirls.

# SCREEN ABRASIVES

---

Screen abrasives are made with a strong polyester backing that is durable and long lasting. The screen is full of tiny holes that is very effective for dust free sanding. It also keeps materials from loading up onto the abrasive. This results in a smooth sanding pattern on the surface you are preparing. This can be used for stock removal & stripping away old finishes like lacquer or stain.

# SURFNET ABRASIVES

## NET | BLUE ALUMINUM OXIDE (A/O)

Nitted flocking on an open-cell foam backing. Aluminum Oxide grain provides longer life over Silicon Carbide with very good finish characteristics. SurfPrep Net pads or discs can be used wet or dry depending on the application. The flexible foam backing allows the pad or disc to mold to profiled surfaces. Dust travels through the open-cell foam structure up through the sander and into a SurfPrep vacuum.

## Easy Cleaning

Are you still cleaning dirty furniture pieces by hand? You can easily attach **Maroon non-woven** discs and pads to your SurfPrep sander. Pair these pads with a cleaning product you trust and start sanding away. The fibrous material is excellent for removing grease and grime that has built up on the piece you are sanding.

# NON-WOVEN ABRASIVES

## FLOCKED NON-WOVEN

These pads are 3-dimensional and highly flexible. The flocked backing is to be used on SurfPrep Sanders with Hook & Loop backup pads (H&L). Vacuum holes are not needed for dry vacuum sanding; the sanded substrate will flow through the open fiber and flocking.

## REVOLUTIONARY ABRASIVE DESIGN

Size: 5.5" X 4.5" X 3/16" Thick

SurfPrep's focus is to learn every day. This means we are out in the field with professionals who focus on sanding all year long. Our goal is to understand what users need and we develop new products that bring value to a company. With this, we created the R.A.D. Pad which stands for Revolutionary Abrasive Design. The closed-cell medical-grade foam backing allows the user to scuff sand areas by hand.

# 9" X 11" SANDPAPER

## PROFESSIONAL SANDING SHEETS

SurfPrep's premium sanding sheets are made for quality sanding operations. The diverse array of grits and minerals allow for excellent sanding no matter what substrate you are working with.

### Aluminum Oxide Sheets

Uses and Applications: Professional-quality sanding operations. Ideal for surface preparation in the wood industry. Good for plaster, clay, and removing layered paint. Can be used for dry sanding on plastic and non-ferrous metal. The open structure prevents premature loading providing longer performance.

# NON-WOVEN HAND PADS

## 6" X 9" ABRASIVES

SurfPrep's Non-woven abrasives are coated with high quality abrasive grains. These hand pads have a very high mineral content (Silicon Carbide or Aluminum Oxide) and maintain flexibility while sanding. When using these non-woven pads, there is always a consistent cutting action that requires little pressure. Check out the variety of options we have for woodworking, metal, plastics, composites, coatings, etc.

### Black Medium 120 Grit S/C 50 Pads/Box

This black non-woven pad is versatile for almost any general purpose sanding and cleaning solution. It can be used for anything from cleaning a BBQ to removing rust.

Part Number	Description

### SURFPREP'S CONTINUED COMMITMENT TO INNOVATION...

After years of sourcing poly/cotton jumbo rolls, a partnership was forged with a progressive global manufacturer of raw materials to support fabricating what we believe to be the best cloth backed sanding belts for the woodworking industry. SurfPrep's proprietary textile blended backings coupled with innovative grains, resins, tapes, and static neutralizing ingredients perform with less pressure and offer longevity unparalleled across the industry.

SurfPrep cloth belts are sold through certified distributor/dealer partners across North America and run in thousands of shops daily on smaller, single to combi head wide belt machines, edge sanders and portable belt sanders providing lower operating costs to these shops.

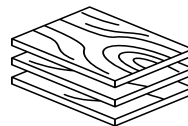

- Durable, Hybrid Poly/Cotton backing blend
- Sharp/durable friable abrasive grain structure
- Heavily monitored unique grain dispersion
- Innovative resin coating system containing static discharge properties
- Available widths range from 1" - 54" with wider widths upwards of 82" segmented
- Each belt is visually inspected to maintain zero tolerance joints
